# Toxic Overload?

## **TOXINS, TOXINS EVERYWHERE**

*in your food, water, medications, cosmetics, hygiene products and environment.*

**Do you suffer from any of the following?**

- *Pain or Inflammation*
- *Disease or Illness*
- *Depression or Anxiety*
- *Excess Weight*
- *Low Energy*
- *Premature Aging*

*All the above points can be **traced back to a toxic large intestine.** These toxins then leak into your pelvis and move all throughout your body.*

GENTLY DETOX EVERYDAY

# Daily Cleansing Tea

- Releasing toxins all at once can be very shocking to your body. Gradually is best.

- .....
- The longer you drink the tea and how consistently – the deeper your cleanse and the greater the effects

- .....
- Detox your toxic load and keep waste moving through your intestines to avoid extended exposure and absorption

- .....
- To cleanse just your small and large intestine may take a minimum of 3 to 9 months

# BENEFITS

## Why You Should be Taking Detox Tea

### WEIGHT LOSS

The main purpose of fat is to protect your organs.

Lose the toxins and your body will no longer need the fat

Will only occur if the body needs it.

### REDUCE PAIN AND INFLAMMATION

Bring down your toxic build up and you will be well on your way to being pain free!

Best to do slowly rather than shock your body with a big detox dump.

### INCREASE YOUR ENERGY

Regain and maintain full function and vitality of your body through gentle daily cleansing.

When your organs do not have to work as hard, you save that energy.

### LESS BLOATING, GAS AND STOMACH ACHES

Bloating is from your food rotting in your guts, causing a back up of waste and toxins.

Drinking the tea will help get this road block moving and stop prolonged exposure to toxic waste.

### YOUNGER UNBLEMISHED SKIN

The biggest organ in your body is your skin. It absorbs toxins both externally and internally.

Eliminating toxins will aid in the reversal of skin ailments and anti-aging.

### BETTER MENTAL CLARITY

Gut health is directly related to brain function. The more toxic your lifestyle, the more forgetful you may be.

Turn the toxic tide to regain your focus and balance your mind.

# - Directions -

★ Preferably,  
make with  
**STRUCTURED**  
water

01

Bring 1 gallon (4L or 16 cups) of purified water\* to a boil, then remove from heat

04

Cover and let steep for 8 hours to bring the herbs to full potency

02

Let water stop boiling before adding tea bags. This preserves the natural enzymes & effectiveness of the herbs

05

*Transfer, along with the tea bags, to glass or metal containers and refrigerate until finished*

03

Add 2 bags of Daily Cleansing Tea to the water. Three if constipation is an issue

## what NOT to do. . .

- **Forget to take your tea - set a timer**

- **Take with food - drink 20 minutes before or 30 minutes after a meal**

- **Forget to make more - make more tea when one litre is remaining**

- **Microwave tea bags or tea water - this will alter the tea**

- **Bring tea back to a boil - You may reheat, just do not boil again**

- **Take within same one hour window as prescription drugs**

- **Use one tea bag per cup - Tea will be too strong. Rather, make a full gallon per two/three tea bags**

# Daily Dose

of detox

- Drink 4oz twice a day for first 3 days. Those with sensitive intestines may wish to start with 2oz

- Gradually increase to 8oz twice a day depending on consistency of bowel movements

- If you feel your stool is too loose, just reduce amount of tea

- If you are having a hard time going, drink more or add another tea bag when making

- Drinking before meals may help **reduce heart burn and acid reflux**

# Good Stool

## HOW CAN YOU TELL?

- Is it soft? Is it firm?
- Does it float?
- Is it free from foul smells/odours?
- Is it light or medium brown?
- Did you have to strain?
- Is it banana shaped?
- Is it 5–7 inches long?
- Did it take place 15–20 minutes after a meal?
